

An artistic illustration of three hands of different sizes, colored in a light brown wash. The hands are holding several thin, dark branches that curve upwards and to the left. These branches are adorned with small, round red apples. The largest hand on the left has a circular henna design on its palm, featuring a stylized face. The middle hand is the smallest and has a small, intricate geometric henna design on its wrist. The right hand is of medium size and has a leafy branch henna design on its wrist. The overall style is hand-drawn and organic.
